One of the coalition’s top strategic priorities is to advocate for policy change to serve the needs of members, survivors, and the domestic violence field. In the Fall, we convened a policy committee consisting of representatives from our member programs to develop a policy platform for the coalition and identify our legislative priorities. The priorities culminated in the coalition’s first-ever policy agenda that was shared with legislators on the opening day of the 2023 legislative session. We have actively weighed in on more than 15 bills this session, mostly domestic violence-related, childcare, housing, child welfare reform, and gun violence. All of these issues have a direct impact on the safety and well-being of survivors and the people like you who walk alongside them.

Another strategic priority is to broaden and expand collaborations within and outside of the domestic violence community. To that end, we joined other coalitions such as the Hawai‘i Children’s Action Networks’ Champions for Children, Working Families Coalition, Hawai‘i Women’s Coalition, Hawai‘i Housing Access Coalition, and the True Cost Coalition (spear-headed by some of our very own members PACT, CFS and DVAC). We are working to uplift the experiences of survivors in all sectors and supporting our community partners.

We are especially proud to collaborate with Everytown for Gun Safety and Giffords Law Center to Prevent Gun Violence on amendments to the house and senate firearms sensitive places bills better to protect domestic violence program locations and services. Those bills continue to move through the legislative process.

This spring we are also kicking off two state-wide needs assessments: The Restoryation Project is a national-wide study on the impact of the COVID-19 pandemic on all levels of the domestic violence workforce. We join 25 other state and territorial coalitions in this project, including Guam and the Northern Mariana Islands. We are also conducting a statewide needs assessment of Native Hawaiian and Filipino survivors to inform our domestic violence state plan with DHS. Finally, we are fortunate to grow our team to work with you and our community partners. Sarah Babin Bauer joined us as the new Grants Analyst and Luanna Peterson joined the Board of Directors.

Yours in service,

On **March 30**, we hosted a training with the Hawai‘i State Fusion Center to review violent involuntary celibate (‘incel’) extremism as the driving motivation behind several mass violence incidents within and outside the U.S. and its related grievances rooted in sexual violence: the idea that threat actors had the right to sexual access, generally with women. The webinar also discussed the attack on the Hot Yoga studio in Tallahassee as a case study and preparing safety plans for those who may have been in close contact with extremists.

RESTORYATION PROJECT FOR DOMESTIC VIOLENCE SERVICE PROVIDERS

We will hold a series of events in each county and facilitate individual "story circles" for advocates, program directors, and executive directors. In order to truly understand what our workforce needs, we will provide a space for story sharing, listening, reflection, and reconnection.

Registration is now open for programs to sign up for their respective locations.
